| Division / Department: | TS- MSS | Employment Type: | Work Visa |
| Direct Manager: | | Duty Hours: | 08 Hours / Day, 6 Days / Week |

Job Purpose:

To perform mechanical fitting activities including inspection, troubleshooting, dismantling, repair, and reassembly of rotating equipment such as pumps, compressors, fans, and turbines, ensuring safe, reliable, and efficient plant operations in compliance with maintenance and safety standards.

Key Responsibilities:

- **Carry out fitting, maintenance, and repair of various rotating equipment including:**
 - **Centrifugal and positive displacement pumps**
 - **Reciprocating and screw compressors**
 - **Gearboxes, fans, agitators, and blowers**
- **Perform detailed inspections to identify wear, misalignment, or damage to equipment components.**
- **Troubleshoot mechanical faults and assist in root cause analysis of equipment failures.**
- **Dismantle, clean, assess, and reassemble equipment according to OEM standards and maintenance procedures.**
- **Perform alignment tasks using tools such as dial indicators, laser alignment systems, and feeler gauges.**
- **Replace bearings, seals, gaskets, and other mechanical components as necessary.**
- **Conduct mechanical run-out checks, clearances, and tolerances measurements to ensure reliability and functionality.**
- **Maintain proper housekeeping and ensure safety compliance during all maintenance activities.**
- **Document all maintenance and repair activities in the Computerized Maintenance Management System (CMMS).**
- **Assist engineers and reliability teams in continuous improvement efforts and equipment modifications.**

| Direct Manager: | | Duty Hours: | 08 Hours / Day, 6 Days / Week |

Qualifications & Experience:

- **Technical Certificate / Industrial Training (ITI) in Mechanical Fitting or equivalent.**
- **5+ years of hands-on experience in fitting and maintenance of rotating equipment in industrial or petrochemical environments.**

Technical Competencies:

- **Proficiency in mechanical fitting, assembly, and precision alignment.**
- **Sound knowledge of rotating equipment parts, tolerances, and tools.**
- **Familiarity with maintenance standards and best practices for rotating machinery.**
- **Ability to read and interpret mechanical drawings and technical manuals.**

Behavioral Competencies:

- **Strong attention to detail and mechanical aptitude.**
- **Effective communication and teamwork skills.**
- **Commitment to health, safety, and environmental practices.**

Working Conditions:

- **Field-based role with exposure to industrial environments, including hot and noisy areas.**
- **May involve shift work, working at heights, and extended hours during shutdowns and emergencies.**
